

Britain And France Make Ventures To Retain World Peace

Toronto—Premier Macgill and Canadian cabinet members, in a diplomatic partnership, informed members assembled, in the face of British and French efforts to retain the Italy to the Locarno treaty union.

The declaration of Italy and Germany recently have agreed on the face of Austria, diplomats declared, and have made no mention of understanding on the Locarno pact.

France attempted to gain French support by announcing her part of the Mediterranean mutual assistance agreement, authoritative sources indicated, while Great Britain expressed an offer of diplomatic peace to the Locarno pact, and in return for reducing British naval strength in the vicinity of North Africa.

However, British overtures were interpreted by officials as being of "second-hand" offer to win Italian support, prospective Locarno pact, Germany where the principal subject is respect to the German's re-occupation of the Rhineland.

Italy's decision not to attend the Locarno session, under the Locarno pact, was communicated to Hitler, reported German press.

The French newspaper, following the Locarno pact, indicated that the Locarno pact, in view of the Locarno pact, was communicated to Hitler, reported German press.

The French newspaper, following the Locarno pact, indicated that the Locarno pact, in view of the Locarno pact, was communicated to Hitler, reported German press.

The predicted remaining three agreements in the Mediterranean pact, in view of the Locarno pact, was communicated to Hitler, reported German press.

Weekly Press Meeting

Officers Are Elected At 17th Annual

Winning—J. J. Bennett of Carman, Man., was elected president of the Canadian Weekly Newspaper Association at its 17th annual convention here.

James of Bowmanville, Ont., was elected first vice-president, and Frank Thomas of Kenosha, N.B., was elected second vice-president.

Waskatchewan members elected to the board of directors were: Sam Dorman, Alberta; E. R. Ziegler, Hanna, and W. T. Trotter.

Alberta: H. G. McCreary, Wapiti, and Tom Halliwell, Coleman.

British Columbia: Ralph White, Kamloops, and Tom Love, Grand Forks.

Delegates heard an address by W. L. MacTavish, vice-president of the association, at the Winnipeg Tribune.

A bigger and better field for the paper has been shown, Mr. MacTavish told the gathering. If the newspaper accepts its full share in the community, it cannot fail to win an ever-widening sphere of influence, he declared.

Hon. J. R. McDonald, minister of mines and natural resources, preferred to be a spectator for the day, in the absence of Premier Macgill.

Hoppers Destroy Weeds

Clean Now Thistle Out Of Large Area In Manitoba

Winning—Premier Borchert heard from George Baul, Manitoba roads commission chairman, that his hoppers had partially repaid the estimated \$30,000 crop damage they had caused since 1921.

Grasshoppers destroyed some thistle over a solid block of 120 townships, an area of 3,500 square miles, reported on the east by a line running through the International Boundary to Selkirk and on the west by a line running roughly from Hudson Bay to Lake Manitoba. The eradicated area is estimated worth \$15,000,000 to farmers.

Aviators Honored

Ottawa—In recognition of their services as pilot and mechanic to Lucien Bouchard in his Atlantic flight, Herbert Hollick-Kneebly and James H. Lyman, both of whom have been made honorary air commodore and honorary group commander, respectively, in the ranks of officers, Royal Canadian Air Force. It has been formed for months.

New Brunswick Crop Good

Salsbury, N.B.—While crops in various parts of Canada, the United States suffer from drought, there in New Brunswick are flourishing a result of the fine weather. Hon. A. C. Taylor, provincial minister of agriculture, said.

Thanksgiving Day

Ottawa—An order-in-council, fixing Oct. 12 as Thanksgiving day, has been passed by the government. It was announced.

To Stabilize Prices

Set Price Beyond Which U.S. Wheat

Chicago—A "price ceiling" below which United States grain prices were not to be lowered, the United States has established by importation or threat of importation of foreign wheat into the United States over the tariff wall, market specialists here said.

Reconstructing Trade System

Italy Is Planning A Complete New System

Rome—A completely new international trade structure for Italy was announced by the Italian government. It was said authoritatively the government was sending out special missions to other nations to study their commercial systems.

Official said the reconstruction of the nation's foreign trade system would be accomplished "without blood and preference."

At the same time, they indicated the Italian government was in a hurry to accept an invitation to join other Locarno treaty signatories in conference convened in Germany's rehabilitation of the Rhineland and the possibilities for a new European peace structure.

As for the nation's new foreign policy, two basic points were suggested:

1. Nations which desire to sell to Italy must buy from Italy.

2. Nations wishing to sell to Italy must not compete with Italy's agriculture and industry.

British People Optimistic

High Commissioner To Canada Soon

Ottawa—Sir Francis Flood, British high commissioner to Canada, is expected to return to his post in the United Kingdom, said the people here were optimistic and that there was every indication the high commissioner would be replaced by a British official.

PlANE FLIGHTS TO ASSIST WORK OF WEATHER BUREAU

Washington—Western airmen will begin making daily plane flights at five important points in the west to make more accurate forecasts based on upper air conditions.

Weather bureau officials said that in addition to the 25 stations at which high altitude sounding balloons are made—daily flights will be started at Miami, Fla.; Salt Lake City, Utah; and at Oakland, Calif.

An aeroplane weather observer will begin daily flights at Fairbanks, Alaska, on Sept. 10, and at Juneau, Alaska, on Sept. 11.

The Fairbanks flights, officials said, will be used to study the cold waves that sweep out of Alaska every winter, cold extensive areas in the United States.

The Canadian government is co-operating in the studies and is considering establishing a similar station at Ft. Smith, Northwest Territories, officials said.

The western mailer, said the prime minister, will be used to study the cold waves that sweep out of Alaska every winter, cold extensive areas in the United States.

The Canadian government is co-operating in the studies and is considering establishing a similar station at Ft. Smith, Northwest Territories, officials said.
